WOOD COATINGS

Passion for wood

1K Waterborne solution for non bleeding wood species

Our CETOL® WM 6100-XX offers a longlasting, high performing 1K Waterborne translucent solution, substantiated with excellent transparency (crystal clear) and very good pore filling. Unprecedented sandability with minimized risk of sanding through for a silky smooth surface

- **Very good pore filling**
- **Good flow**
- **Excellent levelling**
- **Excellent transparency**
- **Very good application properties**
- **Best in class sandability**
- **Cost efficient**
- **Proven durability in Global Weathering program**
- **Extralife warranty**

**Replaces
CETOL® WM 610,
WM 611 &
WM 665**

Technology:
Waterborne 1K

Application:
Flowcoat
(CETOL® WM 6100-02)

Application:
Spraying
(CETOL® WM 6100-03)

Shelf life:
24 months

Color:
Translucent

Durability:
Excellent
Included in Extralife 7Y

Application temp:
Minimum: 15 - 25°C for
substrate at 60% RH

Sustainability:
Waterborne
