# RUBBOL® WF 98XX RANGE

A versatile translucent system with refined product range, offering better choices

Cetol WF 98XX

**AkzoNobel**

# CETOL® WF 98XX RANGE

The various different products of the CETOL® WF 98XX range from Sikkens Wood Coatings deliver better performance and excellent durability from a single platform.

This translucent range of waterborne single pack top coats for wooden windows, doors and claddings are suitable for all kinds of woods and provide excellent application properties, transparency and high durability. Available in different gloss levels and appearance, CETOL® WF 98XX products deliver a high quality surface and a great look and feel to any wooden doors, joinery or cladding. They deliver no dirt pick-up and excellent levelling.

In this brochure, you'll find all details about the complete CETOL® WF 98XX range – including CETOL® WF 9810-03-XX, CETOL® WF 9810-04-XX, CETOL® WF 9810-46-25 and CETOL® WF 9830-03-05. If you are looking to achieve long lasting surfaces with top performance, the CETOL® WF 98XX range will help you to deliver the best results ever.

With the CETOL® range we can offer you all colours from the Joinery Color Classics JCC and the Never Ending Impressions colour collections. We only can display some of the colours but if you are interested please check all colours on our website [www.sikkens-wood-coatings.com/world-of-colours](http://www.sikkens-wood-coatings.com/world-of-colours)

#### Suitable for all wood:

Customers can use the range for softwood, hardwood and wood alu

#### Use same range no matter of end use:

Can be used on wooden windows, doors, constructions and claddings.

#### Self sealer

CETOL® WF 9810-46-25 can be used as a self sealer

### IMPROVED QUALITY

- Excellent durability
- No dirt pick up
- Excellent levelling
- Extended warranty now 7 years (2 years for light colours)

### FEATURES

- Excellent transparency
- High body
- Very good application properties
- Adapted to Wood Color Tinting system tinting with Aquaflex
- Low build, emphasizes a natural effect CETOL® WF 9830-03-05

# CETOL® 9810

## BEST PERFORMANCE FOR DIFFERENT APPLICATIONS

The CETOL® 9810 assortment of translucent products convinced all customers who have tested the different versions on pine and oak.

The spray version CETOL® 9810-03-XX with its smooth surface like furniture has a good levelling, less grain raising, fast drying and can be applied up to 300 µm. The vacuumat/brush version CETOL® 9810-46-25 has a high build, good levelling, a good pore wetting and can be applied in the vacuumat 1-2 times with 100 µm up to 150 µm and in 3 layers by brushing.

### Features and Benefits:

#### Excellent durability with no dirt pick-up

The CETOL® WF 9810-03-XX, WF 9810-04-XX and WF 9810-46-25 didn't demonstrate any dirt pick-up after the outdoor exposure during our Global Weathering Program. This helps you to convince your customers of a brilliant surface with maximum durability and lifespan.

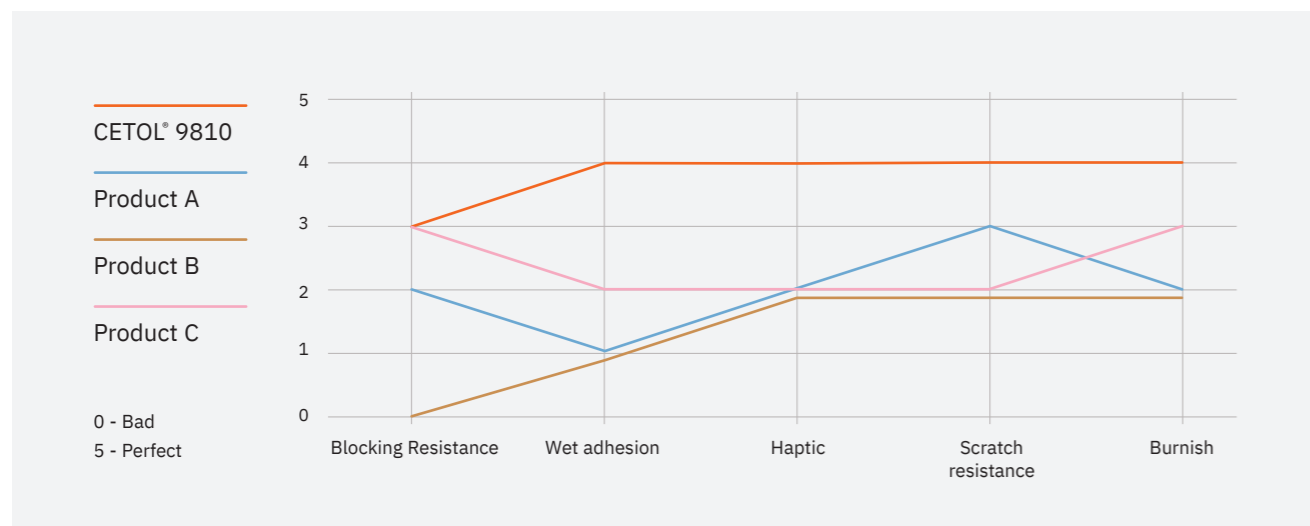

#### Spray application up to 300 µm

CETOL® WF 9810-03-XX can easily be sprayed up to 300 µm with a good flow and excellent levelling and a surface smooth as furniture. The less grain raising supports the superior end result.

#### Brush application up to 150 µm

CETOL® WF 9810-04-XX can be applied 3 times by brush up to 150 µm to produce good levelling. The good pore wetting and the high build of CETOL® WF 9810-46-25 helps to create a great finish. By using a vacuumat you can benefit from the same results with 1 to 2 layers.

### CETOL® WF 9810-03-XX

#### 1K Waterborne mid- and topcoat, translucent

Translucent mid- and topcoat for wooden constructions.

- Suitable for all wood (softwood - hardwood - wood-alu)

# CETOL® WF 9830

## THE BEST NATURAL LOOK AND FEEL

The CETOL® 9830-03-05 achieves a very smooth finish and deep, natural matt appearance on different substrates. The product delivers very good spraying properties with good levelling, pore wetting and filling characteristics. Against competitor products we accomplished better results on Accoya / Western Red Cedar with no issues of uniform colour distribution and surface tension.

### Features and Benefits:

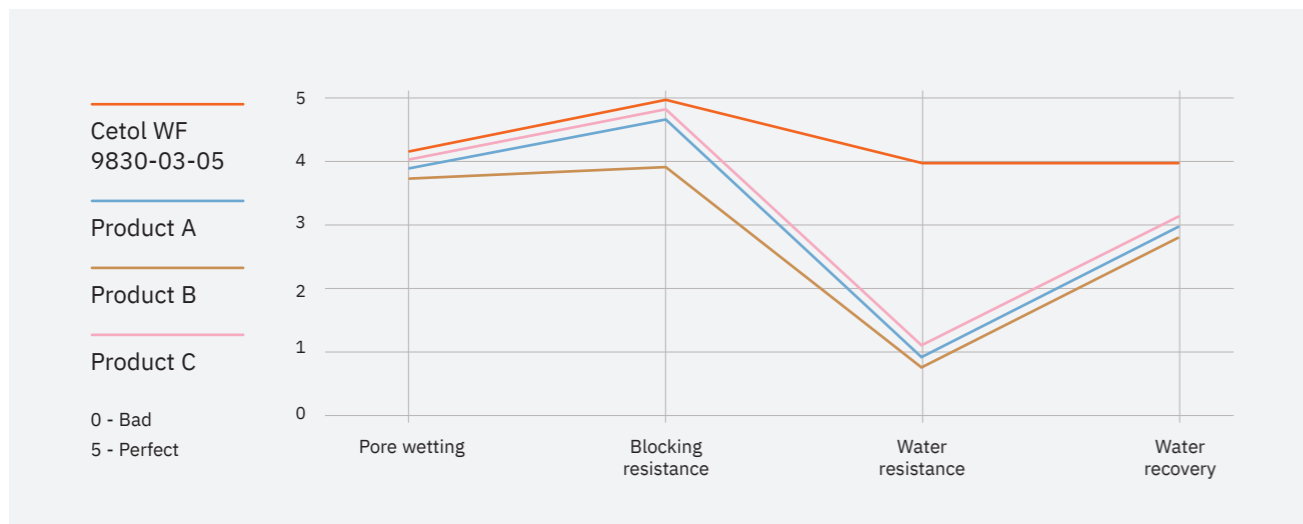

#### Best results at the water drop test

CETOL® WF 9830-03-05 delivers the best results during our water drop test. At the same time the surface looks like furniture and has a deep matt natural look.

#### Better appearance with a more natural touch and feel

Our customers tested CETOL® 9830-03-05 against several products and found out that the new product delivers the best natural appearance on a surface such as furniture.

### CETOL® WF 9830-03-05

#### 1K Waterborne mid- and topcoat, translucent

Dead matt translucent mid- and topcoat for wooden constructions.

- Low build
- Natural effect varnish with oil finish character that emphasizes the wood structure

<b>Tintable</b>	Yes	
<b>Application</b>	Spray application Airmix/Airless	
<b>Thinner</b>	Water	
<b>Colour Shade</b>	<b>Gloss Level @ 60°</b>	<b>Packsize</b>
TC Colourless	Dead matt	2.5 l / 20 l / 120 l

### GLOBAL WEATHERING PROGRAM

## TESTED TO THE LIMIT

With our AkzoNobel Global Weathering Program we expose and monitor our product samples to a variety of outside weathering conditions over a longer period of time.

By accelerating the outside exposure, we're able to define the durability of our systems and offer reliable solutions. These rigorous weather simulation tests help us to demonstrate that wooden joinery or PVC coated substrates can easily endure outdoor weather conditions even in extreme environments.

To find out more information about our Global Weathering Program, please visit: [sikkens-wood-coatings.com](http://sikkens-wood-coatings.com)

**Canada**  
By doing regular parameter checks and visual inspections, we are able to monitor the durability of our systems.

■ Norway  
■ Sweden

**Turkey**  
Ensuring we are able to test our products in a wide range of locations and conditions gives us the data and knowledge we need.

**Malaysia**  
We are confident that our products are of the highest quality and will perform as needed.

■ Australia

# AkzoNobel

Since 1792, we've been supplying the innovative paints and coatings that help to color people's lives and protect what matters most. Our world class portfolio of brands – including Dulux, International, Sikkens and Interpon – is trusted by customers around the globe.
